TCS HackQuest Season 6 | Freshers | Any Graduate | Across India

TCS HackQuest Season 6 | Freshers | Any Graduate | Across India

Job Role : Trainee

Qualification : BE\BTech\Bsc\BCA\ME\MTech\Msc\MCA

Batch : 2021\2022

Khalsa College of Engineering & Technology  
Ranjit Avenue, C-Block, Amritsar-143001  
0183-5030765

Experience : Freshers  
Job Location : Across India

### Introduction

Hacking as an organized activity has gained more traction recently. It certainly seems less menacing compared to the last couple of years and the rise of ethical hacking has emerged as a much-needed counter control to organized and state sponsored hacking activities. Given the prevailing pandemic where end points of organizations have also "gone home", it is essential now more than ever for the massive ethical hacking community to be ready to keep a hawk's eye out there.

We need to create an army to protect data with the same zealousness of an army that guards a country's physical borders. We need them to be conversant with the way data is stored, moved, and used. With the network line blurred between office and home, our data is more at risk than ever before. How can we ensure the confidentiality, integrity, and availability of our data?

In this backdrop, TCS Cyber Security Unit is looking for students and enthusiasts who have a passion for ethical hacking and in general securing the digital future of organizations engaged in transacting millions of data points across the world!

### The Contest

HackQuest started in 2016 as an earnest attempt to unearth specific talents who excelled in playing their favorite game – Catch the Flag! Based on the popular 'Catch the Flag' (CTF) format, the contest presents a set of challenges to be completed in 6 hours. Each challenge evaluates their ethical hacking skills and their special competency in finding vulnerabilities. In the end, associates are awarded with special prizes and potential job offers from TCS in the Cyber Security Unit.

### Participation

The contest is open for the 2021 and 2022 batch of B.Tech / M.Tech / BCA / MCA / BSc / MSc from all the relevant institutes in India.

### Discipline

Students from all IT & Computer Science related disciplines with bachelor's or master's degree are eligible for the contest provided that they meet the TCS recruitment criteria. Candidates trained in Security domains as listed below would be given more preference:

Application Security

Network Security

Java/J2EE, php, python. GO

Information security and risk management

Ethical Hacking

Any Security specific certification like Security+, CEH, ISO 27001, etc.

Khalsa College of Engineering & Technology  
Ranjit Avenue, C-Block, Amritsar-143001  
0183-5030765

### Participation Guidelines

This event is conducted in two rounds. First round is an online Catch the Flag competition where all registered students can participate, and they will be shortlisted for further sub-rounds.

Participants shortlisted after Round 1 will move to Round 2, where they may be interviewed over Video Call/MS Teams/Webex by the TCS Cyber Security interview panel.

This is an individual contest. No team participation is permitted.

Once the contest registration begins, all interested and eligible participants will be required to register for the contest on <https://www.tcshackquest.com> with a valid CT/DT ID. To create a valid CT/DT ID, participant will have to login to TCS NextStep Portal, click on Register, fill in the fields and submit. The candidate will receive a pop-up with their CT/DT ID.

Entries submitted after the registration end-date will not be considered for evaluation.

For the first round, to login to the portal and access the challenges, we recommend the below mentioned specifications

Desktop/Laptop with minimum of 1024\*768 screen resolution

Internet connectivity of not less than 1 Mbps Speed

Browsers: Latest version of Firefox or Chrome

Burp Suite community edition

For the second round, to login to the portal and access the challenges, below mentioned minimum specifications are recommended

Desktop/Laptop with minimum of 1024\*768 screen resolution

Internet connectivity of not less than 1 Mbps Speed

Browsers: Latest version of Firefox or Chrome

Burp Suite community edition

Web Camera

Webex or Microsoft Teams

TCS will arrange for remote modalities of evaluating a select list of contestants from the 1st round. Contestants should stay tuned for real-time updates on round 2, dates, format etc.

Registration :

Any number of students can register for the contest. Participants should be above 18 years of age and would have completed their graduation in the Academic year of 2020-2021 or 2021-2022 only

Students should not have any open/pending backlogs

Students should have 60% or more throughout their education

Khalsa College of Engineering & Technology  
Ranjit Avenue, C-Block, Amritsar-143001  
0183-5030765

Students can participate in this contest after registering in TCS' NextStep Portal - TCS NextStep to generate a CT/DT ID. Remember: (CT)/ Direct Trainee (DT) Reference Number is mandatory for participating in the contest.

Each participant who has registered to participate in Hackquest will be receiving a unique credential to take part in the contest. This credential is of utmost importance and should not be shared with other participants.

Registration Start Date – 10th Jan 2022

Registration End Date – To be notified later

### Round 1

This will be an online test, where the candidates would be required to log on to an online application with a set of challenges / questions to test their skills on ethical hacking and their specific competency in security challenges. The URL of the application will be shared before the contest.

The contest is of 6 hours long in which all the participants are required to use their skills to solve the challenges and submit the Flags captured in the online portal.

Post to completion of solving a challenge, participants need to capture a screenshot of the Flag with timestamp visible and prepare a detailed report in the template provided with a step-by-step approach for solving a particular challenge.

This report should be uploaded on the hackquest portal before the deadline as mentioned.

Uploading of this report to the hackquest portal is mandatory and any participant failing to upload the report will NOT be considered for further evaluation. This will result in automatic disqualification of the candidate for that edition of HackQuest as well. Please also make sure that the report is original and does not match with another contestant in which case, both contestants would be rendered ineligible for further editions of HackQuest.

Maximum size of the report should not be more than 6MB.

Participants are free to use tools for their choice. Using of tools which sends huge amount of traffic or tampering with the App which hosts the challenges is strictly prohibited. If any participant is found violating this, he/she will be disqualified immediately from the remainder of the contest.

The evaluation will be based on :

Flags captured

Quality of the report submitted

Approach followed for capturing the flags

Round 1 Date : Will be notified soon Round 1 Results Announcement Date: Will be notified soon Round 2 Dates: Will be notified post Round 1 result

Round 2 :

Candidates selected from Round 1, based on above-mentioned evaluation criteria will be invited for a remotely conducted additional round, which will be communicated to shortlisted candidates later.

Day 1:

Khalsa College of Engineering & Technology  
Ranjit Avenue, C-Block, Amritsar-143001  
0183-5030765

Activity 1:

Penetration testing on hosted challenges

This would be an individual activity. The candidates would be provided with some challenges, which each participant is expected to solve by using their advanced skills. Challenges in this round cover below mentioned topics :

System exploitation

Penetration testing of web Applications

Mobile security

Digital forensics

Incident Response Scoring will be based on the flags captured by the participants in above mentioned topics.

Activity 2: HR & MR Interviews (3-4 hours) - Remotely

Day 2 :

Grand Finale Ceremony (1-2 hours) – The event will be conducted virtually.

Winner Announcement :

The top performing candidates who clear Round 2 will receive job offers with Ninja and Digital job offers. (Evaluation will be based on the candidate's performance only)

Winners will be awarded with exciting prizes worth up to 5 Lakhs.

Exceptional performers will be given chance to work with Centre of Excellence teams.

Amazon Fresher Jobs In Hyderabad 2022 Details :

Job Role : HR Contact Center Associate

Qualification : Bachelors Degree

Experience : Freshers/Experience(0-10 Years)

Job Location : Hyderabad

Job Category : IT Consulting

Job Description :

Join Amazon's Employee Resource Center (ERC) team and help make a difference for all Amazonians. The ERC provides HR assistance to Amazon employees, in the form of accurate, consistent, and timely responses to inquiries from various contact channels – phone, web case and chat. The ERC primarily exists to help Amazon employees find answers to their questions and solve their complex HR problems. The ERC team is comprised of approximately 900 associates supporting Amazon employees in 49 countries and 14 languages. ERC associates are located in nine locations globally.

Khalsa College of Engineering & Technology  
Ranjit Avenue, C-Block, Amritsar-143001  
0183-5030765

We are currently growing our team of Virtual HR Contact Center Associates that are dedicated to servicing the disability, leave, and accommodation space. In this role, team members interact directly with Amazon employees in a way that builds trust by providing accurate information and resolving issues. The virtual contact center associate must be able to ask probing questions to fully understand the issue, follow business processes with high attention to detail, use multiple resources effectively to find the right information and communicate effectively to the employee. A high degree of ownership, strong communication skills, and the ability to handle sensitive situations with care are essential for this position.

This is a seasonal position with an anticipated assignment of 5-7 months, subject to business needs.

As an HR Contact Center Associate that supports disability, leave, and accommodation, your responsibilities will be:

Serve as the first point of contact for leave, disability, and accommodation related questions

Take ownership of employee contacts ensuring that each contact is accepted and resolved with a high degree of customer focus

Resolve queries by referring to documentation such as frequently asked questions and standard operating procedures and escalate when these cannot be resolved

Build customer trust through empathetic personalized conversations

Receive queries via phone and log contacts into the shared service case management system

Work closely with partner teams to keep up to date on process changes, partner for quick resolution of cross-functional issues, and consult to improve processes

Have the flexibility to work a variable shift between 5:00 PM IST- 8:30 AM IST Sundays to Saturdays, subject to business needs.

Eligibility Criteria :

Bachelor's degree

Freshers are eligible

0 to 10 years of contact center, customer service, human resources or equivalent experience.

Proven ability using Microsoft Office skills and other computer or internet based programs.

Demonstrated proficiency handling customer contacts, queries and resolutions.

Proven ability to manage customer contacts in a fast paced environment.

Proven ability to adjust to constantly changing workloads.

Proven ability to follow existing process with high attention to detail.

Proficient in English, both verbal and written.

Skills Required:

Khalsa College of Engineering & Technology  
Ranjit Avenue, C-Block, Amritsar-143001  
0183-5030765

### Preferred Qualifications:

2+ years of Contact Center, Customer Service, Human Resources or equivalent experience.

Basic US legislation Leave of Absence and Accommodations knowledge.

Previous experience working with Salesforce or similar programs.

1 year of Leave and/or Accommodations experience, to include: previous work in a leave of absence and/or disability claim management role, with experience using case management systems, reviewing cases for eligibility, determining the appropriate leave and/or disability pay benefits that apply to a specific situation, and establishing/executing a case management plan.

Knowledge of US federal and state leave and disability laws

Previous HR experience

Proven ability to manage customer contacts in a fast paced environment.

Proven ability to adjust to constantly changing workloads.

Proven ability to follow existing process with high attention to detail.

Important notes :

We are allowing all our employees to work from home till the COVID- 19 situation eases and you will also be able to work from home from your current location. However, you have to relocate to your place of posting (Hyderabad) once the situation eases (or) as and when you are required to relocate. However you will continue to work from home even after relocating to Hyderabad.

PAN card is mandatory to apply for this role.

Salary : 1.50 to 4.50 LPA
